DEKOPRO ARCHITECTURAL PRODUCTS

DekoPro supply a complete range of exterior decorative architectural mouldings for residential and commercial builders, architects, home owners and DIY renovators. Our lightweight design, durability, precision shape profile and aesthetic appeal make them the choice for astute designers.

DekoPro offers decorative architectural mouldings in three forms. Lightweight Cement Coated EPS, Lightweight Casted Cement (solid or core filled) and GRC (glass reinforced concrete). All types are suitable to be fixed to range of substrates such as brickwork, pre-cast concrete panels, blockwork and various lightweight cladding. Supplied in a natural cement colour that can be easily painted to suit individual projects.

Choose from our wide range of architraves, window sills, stringers, plinths and parapets to achieve virtually any style or effect you desire from Georgian, French Provincial, Edwardian or Traditional Victorian to Tudor, Federation, Romanesque and even Art Deco.

We offer you a wide range of other decorative lightweight products including pier and fence cappings, corbels, keystones, plaques, embellishments, quoins, columns, pilasters and profiled arches and curves that are made to order to suit specific requirements.

On your next project whether it be residential or commercial, you can be sure that DekoPro the Decorative Moulding Professionals has the specific architectural lightweight product to finish your project to perfection.

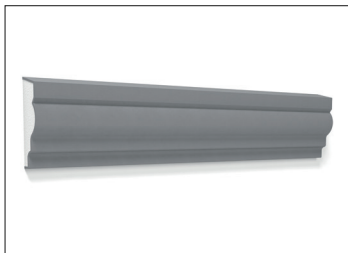

CONTENTS
